## BIO Priming Oil Clear - Interior

The workhorse of all oils. A must for preserving the strength and value of all you timber during construction. Also excellent for rejuvenation, deep penetration and good adhesion for following coats of oils, waxes and varnishes.

## BIO Natural Timber Oil Clear - Exterior

Special ingredients makes it a first class finish for cladding, timber decks and garden furniture. Easy re-application, no sanding. Tested according to the Australian Standard 1580-483.2 for Paints.

## BIO Natural Wood Oil Clear - Interior

A unique blend of Tung oil and other plant oils delivers a clear, warm, long lasting and superb finish for all kinds of timber surfaces and furniture.

## BIO Thinner

A lemon oil based turpentine used for degreasing of timber surfaces, thinning of oils and varnishes and cleaning of implements.

## BIO Teak Oil Clear - Interior

A tough finish for hard wearing surfaces and floor boards. A classical burnishing oil. Very economical. Application by brush, pad, steel wool or polishing machine.

## BIO Hard Floor Wax

A blend of four precious waxes and plant oil gives your floor a beautiful satin sheen. The natural beauty of wood is preserved and maintains its breathing character.

## BIO Red Oil Transparent - Interior

Excellent for darker timber, like Jarrah, Mahogany, Teak etc. The transparent red plant colour will promote the natural tone, colour and natural ageing. Can be used as a priming coat as well as finishing coat.

## BIO Antique Wax

An old fashioned furniture polish. Water repellent with a lemon fragrance. This clear wax gives a lovely natural soft sheen on antiques and sealed modern furniture.

## BIO Paint Stripper

A revolution in paint stripping. WATER BASED - At last! A safe alternative to conventional paint and varnish strippers that really works. No dangerous solvents, no bad smell, no skin burns.
