

RINNAI PRESTIGE SOLAR WITH INSTANTANEOUS GAS BOOSTING

When a Rinnai Prestige solar water heater is combined with a Rinnai Infinity continuous flow gas heater, you have the most efficient style of solar gas heater available, making it 150% more efficient than an old fashioned gas storage heater with a solar boost. The Prestige solar heater works as a pre-heater, collecting energy from the sun whenever it is available, even in the middle of winter.

When you turn a hot water tap on, the water from the solar pre-heater passes through the Rinnai Solar Infinity which boosts the temperature to the Australian standard requirement of 60°C. If the temperature of the water from the pre-heater is already at 60°C, the gas boost does not need to come on at all.

* WHICH REBATE CAN I APPLY FOR?

Sustainability Victoria (SV)

- Existing homes or buildings replacing a gas water heater, wood, briquette or oil fuelled water heater, or adding a solar pre-heat to an existing hot water system.
- <http://www.sustainability.vic.gov.au>

Sustainability Victoria (SV) Regional Rebate

- Existing homes or buildings replacing a gas or electric water heater, wood, briquette or oil fuelled water heater, or adding a solar pre-heat to an existing hot water system.

Renewable Energy Certificates (REC's)

- All domestic solar hot water systems sold in Victoria are now eligible to apply for the REC's.

Victorian Energy Efficiency Certificates (VEEC's)

- Now also applicable (dependant on location & system)

ENVIRONMENTAL BENEFITS OF PRESTIGE SYSTEMS

- Prestige Solar can meet up to 92%* of your hot water requirements. (* ref. Sustainability Victoria.)
- Prestige Solar hot water can save up to 49,000 kWh over 10 years in Victoria.
- Solar hot water can reduce the emission of CO² by up to 6 tonnes per year in Victoria.

RINNAI PRESTIGE SPECIFICATIONS

- CFC-free insulation.
- 1.5mm Marine grade 316 Stainless steel tanks.
- Copper collectors with a Titanium Oxide selective surface.
- Extruded marine grade aluminum collector case for corrosion resistance and appearance.
- Up to 5.7 Star rating for the Rinnai Solar Infinity.

WARRANTY

	SPLIT SYSTEM	CLOSE COUPLED	Roof Master
Panels	7 Years	7 Years	7 Years
Tank	10 Years	10 Years	10 Years
Labour	1 Year	1 Year	1 Year
Rinnai Infinity	10 Years on heat exchanger		

Prices include GST. Packing, freight and insurance are extra. All prices & details are subject to change. Printed on recycled paper.
